

# TOTALMATIC G6 SYN

**TOTALMATIC G6 SYN is the next generation of synthetic fluid formulated to service DEXRON VI or earlier automatic transmission applications.**

## USES

**Automatic transmissions  
Torque converters  
Power steering systems**

Recommended for passenger car, trucks and power steering units for which the manufacturer recommends a DEXRON VI fluid.

## PERFORMANCES

**Meets the requirements  
of manufacturers  
warranties requirements**

- GM DEXRON VI ( License Number J-60330)
- DEXRON II, IID, III, IIIG, IIIH
- DENISON HF-O
- VICKERS (EATON) I-286-S
- VICKERS (EATON) M-2950-S
- VW TL 50160 (G 052 162), TL 52162 (G 052 911)

## CUSTOMER BENEFITS

**Longer fluid life  
Better fuel economy  
Smoother gear shifting**

**Backward compatible**

**Provide twice the service  
life of conventional ATF**

- Meets stricter performance requirements for new GM 6-speed AT.
- Excellent resistance to oxidation for long fluid life.
- Extended fluid life. ( fill for life type )
- Improved fuel economy over DEXRON III-H.
- More consistent shifting performance.
- Excellent low-temperature properties.
- Minimizes sludge and varnish deposits.
- Backward compatible with older DEXRON specifications.

## CHARACTERISTICS

| TOTALMATIC G6 SYN        | ASTM   | Typical value |
|--------------------------|--------|---------------|
| Volumetric mass, at 15°C | D4052  | 0.849         |
| Color                    | Visual | Red           |
| Viscosity, cSt at 40°C   | D445   | 30.05         |
| Viscosity, cSt at 100°C  | D445   | 6.02          |
| Viscosity Index          | D2270  | 152           |
| Viscosity, cP at -40°C   | D2983M | 11,600        |
| Flash Point, °C          | D92    | 230           |
| Pour Point, °C           | D97    | -50           |

The characteristics shown are mean values.
